Projects

Portfolio Website, *This is a personal portfolio showcasing my skills and projects. The website has a clean and modern design, with a responsive layout that adapts to different screen sizes. The portfolio section displays various projects undertaken by the creator, including web development, machine learning, and data analysis projects. Each project includes a brief description, technology stack used, and a link to the project's GitHub repository. The website also has a skills section highlighting my technical skills and a contact section for interested parties to get in touch.* ☑
